

Public Lecture

Medical Doctors from Europe, USA and Canada
will talk about:

Healing on the Spiritual Path - medically verifiable -

Bruno Groening (1906-59)

A higher power exists which can help everyone. It is a part of all religions and was known to physicians centuries ago. Bruno Groening (1906 - 1959) had very precise, intuitive knowledge of this energy and through his simple teachings he made it available to everybody.

Medical specialists, physicians and healing practitioners worldwide belong to the forum of the Medical Scientific Group of the Bruno Groening Circle of Friends. They desire to inform their colleagues and tell people generally of their experiences. Through their medical verification of numerous healing reports they became convinced that people can become free from illness in a natural way.

Lecture contents:

- ▶ Medically documented healings will be explained in lay terminology
- ▶ People who have been cured of mental, organic and so-called "incurable" diseases declared as such, will report on their healings
- ▶ You will learn about young people's stories: Liberation from addiction, depressions, anxiety and other problems
- ▶ Attendees can experience the healing power in a simple, natural way

REGINA

Saturday, April 17th, 2010, 3 p.m.
